Who We Serve

Our Trusted Caregivers

How to Get Started

We are devoted to those who are not ready to leave their home for an institutional setting or those who live with relatives but because of illness or chronic conditions need support to remain at home.

Our clients include:

- Seniors
- Chronically disabled of all ages
- Post hospital rehabilitation patients
- Dementia care patients
- Palliative and hospice care patients
- Family members requiring respite

Constant care giving can bring great stress because the caregiver's focus is centered on the one needing care. We offer relief from daily routines to allow the family caregivers more time for themselves.

Our caregivers are well trained, highly qualified, and carefully selected individuals who are thoroughly screened, bonded and insured. Most importantly, our priority is to have caregivers who are completely trustworthy and exceptional at caring for others.

Our caring service allows our clients to:

- Maintain independence
- Provide in-home assistance and companionship
- Participate in social activities and community events
- Lift the spirit of both the client and the family caregivers

We meet with you and your family to jointly determine the scope of care by conducting an in-depth assessment of your and your loved one's lifestyle and medical conditions. We then evaluate the kind of assistance needed.

During the meeting, we explain fully the services available, answer questions, and help with the important care decisions faced by a family with a loved one in need.

Issues covered include:

- Matching the appropriate caregivers
- Daily routines
- Health and medication
- Emergency response
- Nutritional issues
- Home cleaning issues
- Transportation
- Costs of services
